PROFILE

Detail-oriented Mathematics and Computer Science graduate (First Class Honours, provisional) with hands-on experience in ICT support, web development and field data collection. Seeking an opportunity in ICT support, software development or data analysis, where I can solve real-world problems with technology and keep growing my technical skills.

SKILLS

Technical

- Python, Django
- React, Next.js
- HTML, CSS, JavaScript
- PHP (basic-intermediate)
- SQL and database management
- Pandas, Power BI
- Git & GitHub
- Microsoft Office (Word, Excel, PowerPoint)

Data & Analytical

- Data collection and survey work
- Data entry and data cleaning
- Basic data analysis
- Attention to detail and accuracy

ICT Support

- Hardware and software troubleshooting
- Printer and network support
- System installation and maintenance
- User technical support

Professional

- Teamwork (group projects)
- Community engagement
- Handling confidential data

EDUCATION

Maseno University

2022 – 2026

Bachelor of Science in Mathematics and Computer Science

First Class Honours (provisional graduation list 2025/2026)

Relevant coursework: Data Structures and Algorithms, Database Systems, Database Administration, Software Engineering, Application Development for the Internet, Object Oriented Programming, Network Security, Information Systems Security and Design, Artificial Intelligence, Software Project Management, Industrial Attachment.

EXPERIENCE

ICT Support Assistant

May 2025 – Aug 2025

Kenya National Highways Authority (KeNHA)

- Provided day-to-day ICT support to staff, troubleshooting hardware, software, printer and network connectivity issues.
- Supported installation and configuration of basic systems and office applications, and helped maintain ICT equipment so systems ran efficiently.
- Handled user support requests, including password resets and system access issues.
- Took part in routine IT maintenance and reported technical faults.

Data Collection / Field Enumerator

21 Jun 2024 – 21 Jul 2024

Government of Kenya – Enhanced Single Registry (ESR) Project

- Conducted household interviews and recorded socio-economic information for a government-led survey.
- Helped identify and register vulnerable and low-income households into the national database.
- Kept collected data accurate and confidential, and worked with supervisors to verify and submit completed survey forms.
- Gained experience in data handling, field reporting and community engagement.

PROJECTS

Biography Website – Client Project

- Designed and developed an official biography website for a client, presenting a public servant's career, diplomatic service, recognition and honours, engagements and archive.
- Built a multi-page site (Home, About, Career, Diplomacy, Engagements, Recognition, Archive, Gallery) with a photo gallery and timeline-style career sections.

Tech: React, Next.js, HTML, CSS

Live: <https://kaberia-biography.vercel.app>

Fashion Boutique Website

- Built a full-stack online fashion boutique where customers browse products by category (women, men, dresses, shoes, bags, accessories).
- Features include product pages with ratings and prices, a shopping cart, customer accounts, customer reviews, and new arrivals and sale sections.

Tech: Django, HTML, CSS, JavaScript

Live: <https://victoriaaura.pythonanywhere.com/home/>

Hospital Management System (Django Web Application)

- Developed a full-stack portal where users book services online, such as laundry, bus booking, salon services and house booking.
- Implemented user authentication, an admin dashboard and service management features.

Tech: Django, Python, HTML, CSS, JavaScript, SQLite/MySQL

OpinionMiner – AI-Based Sentiment Analysis (Group Project)

- Worked in a group to develop an AI-powered system that analyses user opinions and feedback.
- Processed text data with basic machine learning techniques to generate insights.

Tech: Python, AI/ML concepts, data preprocessing

SQL Practice & Database Projects

- Practised database design and SQL queries, including table creation, data insertion, updates, joins and data manipulation.

Tech: MySQL / SQL
